What to expect

The George Institute Australia & Royal National Lifeboat Institution/ Bournemouth University bring to you a workshop on Implementation science and Injury Prevention by Design

In this workshop, get acquainted with the Human-Centered Design (HCD) principles of reducing risk and preventing accidents. Exploring case studies from Bangladesh and Tanzania, where HCD is applied to co-develop interventions with communities, focusing on reducing drowning risks among artisanal fishers and vulnerable children. Unlock the framework with us that combines design methodology with traditional research approaches, creating user-centered interventions.

Field Visit Raahgiri: Rethinking our Streets

Kickstart Safety 2024 with **Raahgiri Day** on 1st September 2024 from 7:00 am to 10:00 am at Connaught Place, New Delhi. Raahgiri Day is more than just an event, it is a movement that stands for a commitment to inclusive streets, community-centric initiatives, and transforming cities into safer spaces. Held across 90+ cities in India, citizens reclaim streets by walking, cycling, skating, presenting stage performances, workshops, street art, and engaging games. We also extend a warm invitation to our entire community to a hands-on workshop on Road Safety and Air Pollution on Raahgiri Day. To know more, [click here](#).

Implementation Science Course

Happening on 1st September 2024, this course is led by [Dr David Peiris](#), and aims to develop skills, knowledge, and understanding in applying critical evidence and research in the program and establish practices for implementing informed changes within health. This session will equip delegates with a robust toolkit to approach implementation challenges with a strategic mindset.
